

February 2010

We have moved!

ficonTEC Service GmbH is proud to announce that it has moved its corporate headquarter and production to a new facility. As of February 1st the new address is Desmastrasse 3-5, 28832 Achim, Germany.

The increasing number of inquiries for solutions of automated photonic assembly projects demanded for a more efficient and larger manufacturing space. The new facility provides sufficient capacity to additionally cope with the boost from the introduction of ficonTEC's latest innovative machine. The unique in the market versatile micro assembly platform was just recently presented during the Photonics West 2010.

ficonTEC's product solutions are based on flexible, modular platforms for a wide range of applications from standard to customized R&D and manufacturing requirements, reflecting its device physics knowledge and process expertise.
